

LISTENING SESSIONS

2011 NEW JERSEY STATE AGRICULTURAL CONVENTION

The convention will begin Tuesday morning with the traditional business session, and during the next two days there will be presentations and discussions on resolutions addressing a wide range of topics. **In addition, we will have four listening sessions over the two days and hope that you will be come and tell us about your experiences with any of them.** These sessions are open to the entire agricultural community, but for planning purposes we would like to know if you want to speak. The purpose of each of these sessions is to hear from growers and producers about what is working and what is not working on these issues. Are there regulations or legislation which we need to be promoting or change? What is your experience with the issue and if you want change what might you recommend? It is important to hear from you about these topics that are important to your future in agriculture.

Check the Listening Session(s) at which you want to speak:
